MULTIVISION INTELLIGENT SURVEILLANCE LIMITED

MultiVision Wins Contract To Install Surveillance Systems For Hunan Postal Services, China

MultiVision Intelligent Surveillance Limited (the "Company") wishes to announce that it has been awarded a contract amounting to HK\$7.2 million through its appointed distributor Neng Tong Technologies to install digital video surveillance systems for Hunan Postal Services in the People's Republic of China.

This first phase entails the installation of digital surveillance systems for over 100 branches and 150 automated teller machines (ATMs) in Hunan province. A significant portion of the project is scheduled for completion by MultiVision's fourth quarter of financial year 2004 ("Q4 FY04") that ends on 31 March 2004; and would, accordingly, be reflected in the Company's FY2004 results.

None of the Directors or Controlling Shareholders of MultiVision has any interest, direct or indirect, in the transaction.
